Designed for those who are discerning and expect the very best, the Dune HD Pro series features the highest quality internal components for superior video and audio performance. Features include HDMI 1.4, advanced video processing, Gigabit Ethernet and Wi-Fi networking capabilities along with support for nearly every audio and video file type, container and format.

- Integrated advanced video processor
- Full HD 1080p support
- Hi-End power supply
- High performance DAC
- Balanced XLR stereo outputs
- Solid Hi-End case design
- Direct mode for music playback

Specification:

Modular Entertainment Station Features

- 3D Video Format Support: Decodes wide variety of 3D Video formats, including MVC.
- Audio: Supports the highest quality audio performance with Dolby True HD, DTS HD Master Audio, LPCM, FLAC.
- HDD Player: Plays content from any HDD (NAS, USB, eSATA, Dune HDD Expansion Chassis)
- Network Player: Connect Dune HD Pro to a local network and play content directly from PC or NAS via UPnP, SMB, or NFS.
- MKV Player: Playback HD and SD video in MKV containers and other modern video file formats, including top quality HD video with very high bit-rates > 50Mbps.
- USB Ports: Conveniently connect HDDs, USB flash drives, USB card readers and other USB storage devices without a USB hub.
- HDD Rack Option with Hot Swap Function: Easily and quickly insert and exchange internal 3.5" SATA HDDs for nearly unlimited storage capacity expansion.
- HDMI 1.4: Ensures broad compatibility to the very latest 3D TV's, displays and projectors.
- Full Range of A/V Connectors: S/PDIF Optical Audio, Analog Stereo Audio, Multiple HDMI's (input and output), Component Video, Composite Video.
- Extended Support for Dolby True HD and DTS HD Master Audio: Output bit-stream (up to 7.1 channels) or decode (up to 7.1 channels) for maximum flexibility when connecting audio equipment, and for extended support of advanced playback features (such as Picture-in-Picture).
- High-Quality Music Playback: Plays very high-quality (up to 192 Khz / 24-bit) music files in various formats (FLAC, Monkey's Audio APE, WAV/PCM, DTS, etc).
- Playlist Support: Build playlists from folders, use your own play lists with repeat and shuffle functions.
- Video Output Flexibility: Output video in any resolution and format (from SD to 1080p, 24p/ PAL/NTSC).
- Video Up-Scaling: High quality up-scaling of DVD and any other SD video content to Full HD (1080p) or other HD resolutions.
- File Browser: Convenient file browser with powerful file management (copy, move, delete, rename, organize, sort).
- Available in Two Colors: black and silver.

Extra Functions

- External NAS Support: Access files on any external storage devices (HDD, optical drive, etc) attached to the player from the local network (using SMB or FTP).
- Customizable User Interface: Work with media collections using cover art and icon browsing (supports Full HD graphics).
- Flash Applications: Extend player functionality with FlashLite applications.
- Internet Radio: Playback and record various Internet radio stations.
- IPTV: Playback and record IPTV streams (multicast UDP/RTP) from Internet providers (check availability of multicast UDP/RTP streams with your Internet provider).
- Internet Browsing: View Internet web sites on your TV using the built-in web browser.
